Junior C# Developer (Subsea)

Edinburgh

£40,000 to £50,000 + Internal Training + Company Benefits + Progression

Are you a Junior C# Developer? Are you looking for a very exciting opportunity to progress your career within a very high-end and well established Electronic engineering service company working with underwater equipment?

Do you want the opportunity to work in an ever-growing company who have a background of working with clients globally helping develop systems for equipment used 2000 meters down in the depths of our world's largest oceans.

On offer is a great opportunity for a Junior C# Developer to use their eye to detail to help analyse and build systems for latest evolving technologies used in deep sea exploration. Working with a highly skilled team to help solve some of the most complex and technical challenges in the industry.

The ideal candidate would have a UK driving license and be local to Edinburgh, they would have ample background/an interest in C# and Visual Studio.

The Role:

Analysing systems, write well-designed code and collaborating with team members

Building systems and user interfaces from scratch and making changes

Reading data and developing solutions for software solutionsThe Person:

C# Experience

Knowledge of Visual Studio

Local to Edinburgh
