Job Details

Junior Commercial Gas Engineer – North West

I am currently helping a excellent HVAC specialist based in the North West who are on the lookout for a junior or intermediate commercial gas engineer to join a growing team. they have been successfully operating for over 20 years and provide HVAC design & maintenance works across blue chip commercial and high end residential contracts.

This is an exciting new opportunity to join a team of commercial gas engineers and would suit someone who has either just obtained their commercial gas tickets or more of a junior level and looking to gain more experience in this field.

You will be providing and learning service, maintenance and reactive calls across commercial plantrooms and be on a mobile basis working across the North West region.

Due to the nature of their contracts the candidate will need to be fully vetted and have a clean DBS check.

In return my client is looking to offer:

Salaries up to 38K – depending on exp.

Van & Fuel card

22 days holiday + bank

All specialist tools provided

Phone, PPE & Uniform

– working hour week

Travel time after half hour EW

Call out available once engineer is more competent – 1 in 5

Overtime available.

If you feel you would be well suited for the role or would like to find out more, please send your up to date CV.
