Position description

Job title

Junior Highways Design Engineer

Contract type

Permanent contract

Business Line specific context

Egis is a leading global consulting, construction engineering and operating firm. We work

together with our clients, across every aspect of transport, energy and the built environment to build a more balanced, sustainable and resilient world. The Egis Group has over 50 years experience and a team of 18,+ employees in over countries around the world. Joining our Group means, above all, sharing our values as a people-first company, strongly committed to sustainability and innovation.

In the UK we're proud to be delivering some of the most iconic projects which help connect people, protect our environment and meet emission reduction targets. From motorways to tramways, nuclear power plants to smart cities, clients choose us to help them solve their most complex challenges - delivering climate-responsible growth that meets the needs of communities, industry, and the planet.

Job description

The M25 is one of our Flagship projects in the UK! It is the most used part of the UK Strategic Road Network with it seeing over , vehicles per day and its a critical infrastructure asset for personal and goods vehicles into and around our capital. The network includes around structures and 5 tunnels, so it requires high levels of performance, constant improvement and repairs to keep it operating smoothly.

Weve formed a Joint Venture project called Connect Plus Services (CPS) to work with our partners to widen, operate and maintain the M25 under a 30-year contract and we are looking for a Junior Highways Design Engineer to provide engineering support with producing design solutions for upcoming highways & pavement renewal schemes around the M25 network. This individual will be expected to assist with method engineering reviews with framework contractors and endure the design is based around safe and efficient construction processes. It will require efficient design coordination reviewing documentation and assistance in managing design workloads.

In turn, this role will provide the individual with projects in which they can have significant design ownership over, leading and directing the design outcome of schemes, supporting with detailed design and then follow through the practical construction onsite across the network.

Key responsibilities:

Develop and agree briefs with the design team and design suppliers, to cover scope, budget and programme, and to obtain agreement from Asset lead.

Prepare designs, reports, specifications and other deliverables to budget and

programme.

Design coordination and preparation and review of contract documentation.

Site inspections pre & post works and during construction.

Support senior Pavement & Highway Design Engineers as necessary.

Profile

Essential:

Working knowledge and understanding of highway related design areas, including design codes (DMRB/MCDHW/TSRGD etc.) relevant to highway engineering.

Working knowledge of CDM and other H&S legislation.

Good to have:

Membership or working towards membership of an appropriate professional institution (ICE, IStructE or CIHT).

College/University vocational qualification. (MEng/MSC/BEng/BSc/HNC and HND).

Pavement Engineer Certificate from the institute of Asphalt Technology (however not mandatory)

Asset Management experience.

Knowledge of the use of relevant computer design applications.

Knowledge of the Traffic Signs Manual Chapter 8.

Diversity & Inclusion:

We are an Equal Opportunities employer and we strive to build a workforce that truly reflects the communities we represent. We welcome candidates from all backgrounds, regardless of age, disability, gender, gender identity, gender expression, race, religion or belief, sexual orientation, socioeconomic background, and any other protected characteristic. If you decide to apply for an opportunity with us, your application will be assessed based purely on your experience, the essential and desirable criteria, and your suitability for the role. We value each and every ones contribution as this builds our culture and means that if you work with us, you will be included, listened to, and respected.

Position location**Job location**

Europe, United Kingdom

City

Dartford
