Company: Ada Meher

Location: United Kingdom

Category: other-general

Lead C#/.NET Desktop Engineer – Sheffield (Remote) - £65k Remote Work | WPF | Multi-Threading | Real-time programming | Bonus Scheme

Ada Meher is partnering with a SaaS company based in Sheffield who are looking for a Lead Desktop Engineer, with strong experience in C#/.NET, to join their multi-disciplined & distributed engineering team working on their suite of software products. They are in the process of modernising their existing codebase, with a view to then developing some new key features, and are looking for a candidate to Lead a small team (2-3 engineers) to help realise this. The successful candidate will be working on codebases using low-level and real-time programming techniques to coordinate roughly 30-40 technical components which bring their unique video streaming software product offerings to life. These components span across both hardware and software creating a challenging but rewarding technical solution which is constantly being updated and improved. The ideal candidate will have experience in C# and common systems development techniques as well as ideally and understanding of multi-threading and WPF. They will also be comfortable challenging the status quo and motivating a small team to change and improve processes. The company at hand offer a flexible working solution, promoting a remote-first approach and with flexibility in hours to make the job fit around your schedule. You can expect to meet up in the office on an ad hoc basis, maybe once a quarter, but working predominantly from home. Candidates must be based in the UK with full RTW.

To Be Considered:- Demonstrable experience in C#/.NET Engineering on Desktop Apps- Experience leading a small team (2+ Engineers)- Strong experience in Testing and other quality measures- Knowledge of Multi-Threading and Real-Time Programming

techniques- Experience with WPF/Winforms Along with an excellent work/life balance, this company also offer a strong financial incentive to those who join them with an annual bonus, contributions to significant life events, training and development budget and healthcare assistance all part of their extremely competitive benefits package. They aspire to create a relaxed environment, where employees have the support, freedom and flexibility to produce their best work. We are expecting a strong number of applications for this Lead C#/.NET Desktop Engineer role so please get in touch today to avoid missing out on the initial round of interviews. You can send a CV directly to [matthew.coney@adameher.com](mailto:matthew.coney@adameher.com) for more information.
