D365 Finance Lead

UK - Hybrid

Company: As a longstanding member of the Microsoft Business Applications Inner Circle for the past 4 years, our company maintains a direct connection to the latest developments in Dynamics. This positions you at the forefront of Microsoft technology, ensuring you remain ahead of the market. With over 7 years of experience providing Microsoft D365 solutions across the UK, we are now expanding, offering access to a global customer base in D365 F&SCM. Consequently, you will play a pivotal role in leading D365 Finance solutions for a diverse portfolio of projects, placing you at the center of complex ERP implementations.

What's in it for you? Joining a team of Microsoft-accredited professionals places you in the top 5% of industry experts. You'll collaborate with a highly skilled team dedicated to supporting your personal development and upskilling in Microsoft D365.

Our organization values work/life balance, offering truly flexible working arrangements, including fully remote or hybrid-working contracts. This flexibility enables you to enjoy life outside of work without the pressures of daily commuting, empowering you to spend more time pursuing your passions. Benefit from a comprehensive approach to training and development, including quarterly objectives, 6-month appraisal cycles, fully-funded Microsoft certifications, and dedicated learning and development time between projects. This structured approach ensures tangible career progression, accelerating your professional development with a clear pathway to advancement, including opportunities in Architecture and

even Executive/C-Level roles. You have control over your career trajectory, progressing at your desired pace.

Join a team that embraces the importance of diversity and inclusion, fostering an environment that encourages new perspectives to drive innovation. Here, you'll have a platform to share your ideas and be heard. **What will your background look like?** You'll have end-to-end implementation experience in Microsoft AX and/or Microsoft D365, coupled with deep functional knowledge of Finance systems within Dynamics (AP/AR/P2P/O2C/GL/Procurement/Fixed Asset/etc.). Your expertise will include designing and implementing D365 finance solutions, as well as creating Functional Design Documents (FDD) and demonstrating strong stakeholder management skills.

UK applicants only
