

Lead D365 SCM Consultant

[Apply Now](#)

Company: Focus Cloud

Location: United Kingdom

Category: other-general

Lead D365 SCM Consultant

Base Salary up to £95k + Benefits

Hybrid / Remote (UK)

Are you aspiring to lead D365 SCM initiatives with an Inner Circle Microsoft Partner?

About the Company:

As a longstanding member of the Microsoft Business Applications Inner Circle for the past 4 years, they boast direct access to the latest Dynamics developments. This unique position places you at the forefront of Microsoft technology, ensuring you stay ahead of the market. With over 7 years of delivering Microsoft D365 solutions across the UK, they are now expanding globally in D365 F&SCM, placing you at the core of intricate ERP implementations, leading D365 SCM solutions for a diverse portfolio of projects.

As a Lead D365 SCM Consultant, you will be responsible for the following:

Carry out pre-sales engagements, preparing content for proposals;

Functional project documentation and technical designs;

Prepare and deliver workshops, training and coaching;

Assisting customers with configurations and systems processes;

Assist in project delivery reporting

What's in it for you?

Elite Professional Collaboration Join a team of Microsoft-accredited professionals, ranking in the top 5% of industry experts. Collaborate with a highly skilled team that fosters your personal development and upskilling in Microsoft D365.

Flexible Work-Life Balance: Enjoy a work environment that values your work/life balance. With remote and/or hybrid-working contracts, eliminate daily commute pressures, and allowing you more time for personal pursuits.

Holistic Training and Development: Experience a comprehensive approach to training and development, including quarterly objectives, 6-month appraisal cycles, fully-funded Microsoft certifications, and dedicated learning and development time between projects. This ensures tangible career progression, providing a visible pathway for stepping into Architecture and even Executive/C-Level opportunities, giving you complete control over your career.

Inclusive Work Environment Join a team that embraces diversity and inclusion, fostering an environment that encourages fresh perspectives to drive innovation. Your ideas will always have a platform, ensuring your voice is heard.

Your Background:

End-to-End Implementation Expertise: Demonstrated experience in Microsoft AX and/or

Microsoft D365, managing end-to-end implementations.

Deep Functional SCM Knowledge: Proven expertise in SCM modules within Dynamics, covering Manufacturing, Production, Inventory, Warehousing, and Advanced Warehouse Management.

Solution Design and Implementation: Hands-on experience in designing and implementing D365 SCM solutions.

Leading Engagements: Experience leading workshops, training and supporting presales teams with presentations/demos

Stakeholder Management: Strong capabilities in stakeholder management, ensuring effective communication and collaboration.

If you want to be shaping the future of D365 SCM with a forward-thinking organization, apply now!
