Lead Java Developer

Apply Now

Company: Storyteq

Location: United Kingdom

Category: computer-and-mathematical

Our Digital Engineering team at Storyteq are responsible for building world class, enterprise grade digital applications for high profile brands. We pride ourselves in working with mature Agile methodologies and make use of the latest versions of technology. Our teams are structured in such a way that gives every employee the opportunity to learn new skills, work on various projects over time and see the results of your efforts in the online consumer marketplace. Joining the Digital Engineering function would see you work as part of a cross-functional, product style team, generally consisting of a Business Analyst, Scrum Master / Project Manager, Solution Architect, Lead Developers (FE and BE), Developers, and Testers (Manual and Automated).

Do you love developing innovative and exciting new digital solutions that have a real impact on customer experience? Well we have the role and environment for you here at Storyteq, part of the Inspired Thinking Group (ITG).

You live and breathe development.

Java is your bag and you're a real perfectionist. You'll have a background in hands-on software delivery and will be passionate about digital and driven by achieving the very best results.

At the very forefront of our backend development functions and working on some of our absolutely key customer accounts, you will create and deliver top-notch digital solutions that have a real impact for our customers.

We have a number of exciting opportunities available across our development teams here at

ITG and have plenty going on. If you haven't heard of us already, you will have sooner or later! We are a visionary digital marketing partner who pride ourselves on our ability to stay ahead of the game when it comes to both the tech and creative landscape.

What you'll be doing:

Hands on delivery of software working within a Unix-Based development environment

Working as part of cross functional teams whilst providing technical leadership

Be an active member of the development team, specialising in Java Development but also working on projects using technologies with which maybe you are unfamiliar with

Be responsible for estimating development effort on projects

Help define and execute the development strategy

Conduct code reviews to ensure quality standards are upheld

Work closely with account directors, creative, and the client directly to ensure projects are delivered on time

Mentor and develop other members of the team

Implement and improve working practices

Identify and research emerging market trends to ensure you are always on top of your game

Requirements

Experience of working within an agile environment

At least five years' development experience

Expert knowledge of at least one Java MVC Web development framework (ideally Spring MVC/Boot)

Proven ability to deliver a wide range of projects, large and small

Knowledge of Test Driven Development

Strong knowledge of software development practices, processes and theories, especially around Agile Development Principles

Linux server admin experience

Desirable Skills

Knowledge of development frameworks other than the one you are expert in

Team leadership experience

Mentoring experience

Responsive design and development

Good client experience

Experience in the automotive industry

Knowledge of HTML, CSS, and JavaScript

Benefits

On top of a competitive salary, you can expect a whole load of perks:

25 days' holiday + bank holidays – we understand the importance of you getting some down time.

Annual Wellbeing Day – enjoy an additional day on us to look after your physical and mental wellbeing.

Pension Scheme – helping you save towards your retirement home in the sun!

Corporate Medical Cash Plan – claim back the cost of your medical treatments.

So many savings – through our online community platform, you can access dozens of daily deals, from money off top brands to discounts on days out.

Employee Assistance Programme – our people are at the heart of everything we do, so if you're happy, we're happy.

Cycle to Work Scheme – save on the cost of biking to work.

Monthly Employee Awards - Employee of the Month programme with £250 bonus

Raising money for charity including a paid Volunteer Day – we're all about giving back… and having lots of fun in the process!

Referral scheme – know the perfect person to join the team? You could bag £1,500 for a putting a good word in.

Wellbeing Programme – giving you the opportunity to join regular, interactive Wellbeing Workshops or join our 30 plus Wellbeing Champions.

Enhanced Family Friendly Leave – support for you and your family to help you navigate through the craziness of family life.

We Value Diversity

We champion and welcome diversity in our workforce and ensure all job applicants receive equal and fair treatment, regardless of age, race, gender or gender identity, religion, sexual orientation, disability, or nationality.

We are not only committed to increasing the visibility and recognition of talent from under-represented groups within our organisation, but the wider industry too.

At the end of the day, we make sure we take time to look after ourselves, each other, and the planet, because we're always stronger together.

ITG have a number of community groups (ERGs) available to employees which offer a safe space for like-minded colleagues, with shared interests to connect, socialise and check in with each other. These include Black ITGers Together, LGBTQ+ Together, Mens Health Together, Muslims Together, Neurodiversity Together, Working Parents and Carers Together and Women In Tech Together.
