Please confirm interest with a copy of your CV.

Summary: Experienced Lead Mechanical Commissioning Engineer with a track record of over 10 years. Specializing in gas turbines, responsible for overseeing mechanical commissioning, with expertise in heavy-duty gas turbines and Balance of Plant (BOP) systems. Provide leadership, troubleshoot mechanical issues, ensure safety compliance, and drive project success.

Responsibilities:

Lead and mentor a team of mechanical engineers.

Develop comprehensive commissioning plans.

Execute mechanical commissioning activities for gas turbines and BOP systems.

Ensure safety protocols and quality standards are met.

Troubleshoot and resolve mechanical issues.

Manage documentation and reporting.

Collaborate with stakeholders for streamlined processes.

Apply expertise in heavy-duty gas turbines and BOP systems.

Qualifications:

Bachelor's degree in Mechanical Engineering or related field.

Minimum 10 years' experience in mechanical commissioning.

Strong leadership and project management skills.

Expertise in heavy-duty gas turbines and Balance of Plant systems.

In-depth knowledge of safety protocols and industry standards.

Must be a UK national or have the right to work in the UK

Excellent problem-solving and communication skills
