## Lead Microservices Architect

**Start-up (NodeJS, AWS, DevOps)**

**Location: London Area, United Kingdom**

**Salary: Up to £-/day**

**Contract**

### **Lead Microservices Architect/Engineer NodeJS JavaScript AWS DevOps**

Our client, an exciting tech start-up with extensive financial backing and world-class management is currently on a mission to launch their product this year in the UK. They are looking for an experienced architect/engineer who has worked in multiple greenfield environments building out microservices and the technology landscape associated with this, including:

NodeJS JavaScript TypeScript AWS Lambda RDS Step Functions Shift-Left DevOps  
DevSecOps CI/CD

**It is essential that you have experience in building scalable products in customer-centric environments from scratch inclusive of building secure and production-ready microservices.**

This role is going to entail everything from back-end engineering to security (DevSecOps) to design, development and technical resolutions both front and back end. It will require someone who has worked in fast-paced, flexible start-up environments.

Must be on site in Central London 3 days/week.

**Up to £-/day outside ir35**
