The candidate should meet the following requirements

Job Description

Role Description

The ideal candidate will have

SoCode is working with a leading market metaverse business that is looking for a leader to drive the next step in its business direction. The company is looking for someone who brings skills in game development and commercial experience.

Are you a passionate and highly skilled developer seeking to push the boundaries of digital experiences? Do you possess a deep understanding of virtual and augmented reality technologies and a desire to contribute to the next generation of immersive environments? If so, we invite you to join a dynamic team.

In this pivotal role, you will:

Play a key role in conceptualising and developing cutting-edge metaverse experiences using industry-leading technologies like Unity, WebGL, and VR/AR.

Design and implement interactive 3D environments that are visually stunning, performant

across diverse platforms, and deliver exceptional user experiences.

Stay at the forefront of emerging technologies by actively researching and integrating their potential into innovative metaverse projects.

Collaborate effectively with cross-functional teams of designers, engineers, and product specialists to bring your vision to life.

Contribute to the ongoing development and optimisation of our metaverse infrastructure, ensuring scalability and reliability for a growing user base.

To be successful in this role, you will possess:
Minimum of 3+ years of professional experience in Unity development, with a proven track record of creating interactive and visually appealing 3D environments.

Strong proficiency in WebGL for web-based applications.

In-depth understanding of VR/AR principles and technologies, including experience with relevant development tools and platforms.

Excellent problem-solving skills and meticulous attention to detail.

Effective communication and collaboration skills, with the ability to work effectively in a team environment.

A genuine passion for virtual and augmented reality, coupled with a desire to push the boundaries of what's possible.

The offer:
A competitive salary and benefits package aligned with your experience and qualifications.

A remote-first work environment with regular team meetings and collaboration opportunities.

The chance to work on cutting-edge projects at the forefront of the metaverse revolution.

A collaborative and supportive team environment that fosters professional growth and development.

If this sounds like a good next step for you please submit your CV and a cover letter outlining your relevant experience and qualifications. OR find me on Linkedin (John Magee)
