Company: DeepRec.ai

Location: United Kingdom

Category: other-general

Machine Learning Engineer Remote Position DeepRec.ai are hiring for a talented Machine Learning Engineer to join a fantastic organisation on the East Coast who are using AI to transform and improve the clinical workflow. This is an innovative and inspiring organisation who have specific clinical tasks they need to perform, where they use AI to execute them. As well as creating datasets through real-world evidence efforts, you'll also act as a thought leader when it comes to building bleeding-edge AI applications, aimed to assist clinicians in practice management, cost reduction, issue prevention and improved health care experiences. In this role you have a clear career path to evolve into the position of Head of AI, showcasing leadership and strategic abilities. This will be an exciting journey to build their AI practice and a team around you. Required Skills: Building cloud and native machine learning architecture with: LLamaIndex, HuggingFace, SentenceTransformers, PyTorch, Python, Apache Spark. Experience with practical application of AI and scaling AI with these tools Experience in Health Care is essential We would love to share more details with you, please do apply if you feel this could be a fit and we'll reach out promptly to organise a next step. We look forward to hearing from you
