

Maintenance Engineer (4 day week!)

[Apply Now](#)

Company: The Sterling Choice

Location: County Durham

Category: architecture-and-engineering

Are you a skilled Maintenance Engineer seeking a rewarding opportunity with fantastic work-life balance? Look no further! We're currently seeking a dedicated Maintenance Engineer to join the team in a fast-paced FMCG environment.

This is a days-based opportunity (no evenings, nights, or weekends) with either Friday or Monday off every week!

Key Responsibilities:

Conduct routine maintenance on production equipment to ensure smooth operations.

Troubleshoot and repair mechanical, electrical, and pneumatic systems efficiently.

Perform preventive maintenance tasks to minimise downtime and maximise equipment reliability.

Collaborate with the production team to address any maintenance-related issues promptly.

Document maintenance activities and keep accurate records of equipment performance.

Assist in the installation and commissioning of new machinery and equipment.

Requirements:

Proven experience as a Maintenance Engineer in an FMCG or similar manufacturing environment.

Minimum L3 qualification in an Engineering discipline.
Strong mechanical and electrical troubleshooting skills.
Proficiency in reading technical drawings and manuals.
Ability to work independently and as part of a team.
Excellent problem-solving abilities and attention to detail.
Flexibility to work additional hours when required.

What's in it for you!?

Work-life balance: Enjoy a 4-day workweek!

Professional growth: Opportunity to develop your skills in a dynamic and challenging environment.

Collaborative culture: Be part of a supportive team dedicated to excellence and innovation.

Impactful work: Contribute to the production of high-quality consumer goods that reach millions of people worldwide.

Don't miss out on this exciting opportunity to join the team as a Maintenance Engineer and achieve a fulfilling work-life balance.
