Love engineering, but sick of the ladders and long nights, don't worry your feet will be firmly on the ground!

Come and join our Wayfair Engineering family in Lutterworth, helping to keep our distribution operation smoothly running whilst working on cutting edge automation technology.

As a 'hands on' Maintenance Engineer you will work both autonomously and cross functionally to maintain, fix and maximize plant & machinery performance whilst keeping the facilities up to tip top condition. As well as:

Ensuring effective fault finding, diagnosis, analysis and swift corrective measures are

implemented.

Updating and maintaining our CMMS (maintenance system)

Maintaining process and controls in line with Health & Safety, Quality and Regulatory Compliance (COSHH, RAMS, PTW).

Ensuring all preventative maintenance checks are carried out OTIF

Management of contractors on site (direct & 3rd party)

Supporting our semi-skilled Operators & Apprentices through training and mentoring to develop their engineering career.

If you are naturally inquisitive, love maintaining and fixing electromechanical equipment whilst working in a global, but family feel business this may be the next role for you.

We are excited to hear from you, if you:

Are qualified in Electrical and/or Mechanical bias BTEC Level 3+

Have proven experience of facilities & maintenance engineering within an automated distribution, food or manufacturing environment.

Demonstrate knowledge of electromechanical equipment (eg conveyors, sorters, box cutters, etc)

Can work autonomously to effectively fault find through root cause analysis and implement quick preventive solutions.

Have excellent communication skills, both written and verbally.

Display strong PC skills (Microsoft office/ BMS/ maintenance engineering software)

Although not essential, any experience of PLC controls, programming or operating with Allen Bradley equipment would be advantageous, however as we love to share knowledge this can all be trained.
