

Maintenance Technician - Highways

[Apply Now](#)

Company: Balfour Beatty

Location: United Kingdom

Category: other-general

About the role

Connect Plus Services are looking for someone to join our fantastic Tunnels team based at our Hatfield Depot.

You will be working with the team & will be responsible in assisting in the efficient operation of the M25 Tunnels by undertaking Mechanical and Electrical maintenance and other tasks as required by the Supervisor

The location for this role is based at Hatfield Depot therefore you must be within a 1 hour driving distance from the depot.

What you'll be doing

To be conversant with the operation of all electrical/mechanical plant, within the Dartford River Crossing and other M25 Tunnels, under normal and emergency conditions and be capable of operating systems under local or remote control

When authorised, to carry out switching on Connect Plus Services 11kV

Complete switching schedules prior to any HV switching works

Responsible for safe electrical isolations carried out on site

To be able to carry out Planned Maintenance and defect repair work on a range of electrical equipment which includes Switchgear, Transformers, Pumps, Fans, VSDs, lighting and associated control gear etc.

To read drawings and carry out fault finding and repairs without supervision

To carry out all type of Civil, Electrical and Mechanical Maintenance work within the capacity of a Maintenance Technician with or without direct supervision

Carry out any work of a manual, semi-skilled or skilled nature of any type of trade description (including out of trade work) under the instructions of the Tunnel (Senior) Maintenance Supervisor

Drive vehicles as required, for maintenance purposes

Ensure that all relevant Health & Safety requirements are met, and safe working practices are always adopted.

Ensure that vehicles, plant, and equipment are available and maintained for safe operational use.

Ensure that routine vehicle checks, and drivers hours books are completed in accordance with company procedures.

Attend incidents and work safely in accordance with policies to facilitate the early clear up of hazard/incident

Work to the Electrical Safe System of Work

There is also a mandatory requirement to participate in the Standby/Callout procedure for M25 Tunnels Holmesdale, Bell Common and Hatfield

Who we're looking for

Knowledge and experience of generators and switchgear to 11KV

Fault finding using schematic drawings.

All round experience in Electrical/Electronic/Mechanical Maintenance (Pump Maintenance is an advantage)

Knowledge of current Health & Safety legislation

Ability to carry out electrical installation work to current legislation.

Previous Road Tunnels or Building Maintenance

Recognised Electrical or Mechanical Apprenticeship

Relevant qualifications e.g. City & Guilds

18th Edition of the IET Wiring Regulations

LV or HV Authorised Person is an advantage

Good customer service skills

Why work for us

CPS is a joint Venture project with Balfour Beatty, Atkins, and Egis. We operate and maintain the M25.

The M25 is the busiest section of motorway in Europe and requires careful and efficient planning of work in order to deliver over 100m of annual investment in the highway infrastructure each year, in addition to planned and reactive maintenance activity.

If you have or are looking for a career in Highways, working on the M25 will give you experience and challenge that no other highways project can offer
