Location: London

Category: Other-General

Job Title: Manager - Digital Transformation Location: London Salary: Negotiable Job

Description: Our client is an accountancy and business advisory firm, providing the advice and solutions businesses need to navigate today's changing world. Our clients are Britain's economic engine - ambitious, entrepreneurially-spirited and high-growth businesses that fuel the economy - and the owners and management teams that lead them. We'll broaden your horizons. Manage risk for our clients to make them stronger for the future.

Our Digital & Risk Advisory Services (DRAS) are designed to enable organisations to leverage our innovative methodologies, technology, and highly experienced professionals to manage their business risks most effectively. Working at our client offers curious-minded people excellent exposure to all aspects of business strategy, operations and more. We're a dynamic team of internal auditors, accountants, technology, and business transformation experts with disciplines in finance, risk, projects and change, cyber and digital, amongst others.

Our extensive network and depth of experience mean we work in a highly client-centric way, focused on providing a collaborative, tailor-made advisory service. Our team helps clients manage their business-critical threats, such as cyber events, and build resilient businesses capable of responding to internal and external events which may interrupt their operations. Being known for exceptional client service in our chosen markets, we put innovation and agility at the heart of everything we do.

This is your chance to join a fast-paced, growing team and help shape the future of DRAS at our client. We'll help you succeed. Our clients trust us because of the quality of our advice. That quality grows from a thorough understanding of their business, and that understanding comes from working closely with clients and building long-lasting relationships.

You'll be someone who can work proactively, managing your own tasks, but you'll also be confident collaborating with others, communicating regularly with senior managers, Directors, and our clients' Partners to enable us to serve our clients effectively. You'll be encouraged to identify and draw attention to opportunities for enhancing our delivery and providing additional services to our clients. You'll be someone with:

- Ability to write professional proposals and reports requiring little input
- Ability to meet project deadlines and manage multiple engagements
- Ability to network and interact effectively internally and externally
- Capable of effectively managing a team of professionals and delegating work assignments as required
- Ability to build strong relationships with clients

You'll be able to be yourself; we'll recognise and value you for who you are and celebrate and reward your contributions to the business.

We're committed to agile working, and we offer everyone the opportunity to work in ways that suit them, their teams, and the task in hand. Our client will help you achieve your personal goals and career ambitions, and we have programmes, resources, and frameworks that provide clarity and structure around career development. We're in it together. Mutual support and respect is one of our clients' core values and we're proud of our distinctive, people-centred culture.

From informal success conversations to formal mentoring and coaching, we'll support you at every stage in your career, whatever your personal and professional needs. We can provide the best support for our clients and people when we're working side by side. Our agile working framework helps us stay connected, bringing teams together where and when it counts so they can share ideas and help one another.

Our clients will always have access to the people and resources you need to do your best work. We know that collaboration is the key to creating value for our clients and satisfying experiences at work, so we've invested in state-of-the-art collaboration spaces in our offices.

Our clients represent a wealth of knowledge and expertise, and we'll encourage you to build your network, work alongside others, and share your skills and experiences.

With a range of multidisciplinary events and dedicated resources, you'll never stop learning at our client. We're looking forward to the future. Our client will help entrepreneurial businesses to succeed, fuelling the UK economy. Our success is powered by our people, which is why we're always finding new ways to invest in them. Across 17 UK locations, we are 6,500 unique minds coming together to help our clients reach their ambitions.

We've got a clear purpose, and we're confident in our future, because we're adapting and evolving to build on our strengths, ensuring we continue to find the right combination of global reach, integrity and expertise. We shape the future together with openness and clarity, because we believe in empowering people to think creatively about how we can do things better.
