

## Manufacturing Engineer - Electro-Mechanical products

[Apply Now](#)

Company: Versorecruitment

Location: United Kingdom

Category: architecture-and-engineering

Job Title: Manufacturing Engineer - Electro-Mechanical products

Location: Belfast, Northern Ireland

Salary: £30,000 to £45,000 basic + excellent benefits

Are you a skilled Manufacturing Engineer – Electro-Mechanical products looking for a challenging role in Belfast?

We are currently seeking a talented individual to join a dynamic team in the production of electro-mechanical products.

As a Manufacturing Engineer - Electro-Mechanical products, you will be responsible for ensuring that the production lines are set up to succeed in key performance indicators and metrics like, on-time delivery, cost and quality. The ideal candidate will have a strong background in electro-mechanical manufacturing and a proven track record of improving production efficiency.

Key Skills and Responsibilities - Manufacturing Engineer - Electro-Mechanical products will include:

Designing and implementing manufacturing processes.

To be instrumental in coordinating *kaizen* (continuous improvement) activities with emphasis on principles that include standard work, one-piece flow, daily visual management,

problem-solving, and 5S.

Knowledge of manufacturing processes, fabrication methods, tool design and process improvement and knowledge of process control is essential.

Conducting root cause analysis for production issues.

Collaborating with cross-functional teams to drive continuous improvement initiatives.

Experience with lean manufacturing principles is a must-have.

You will also have the chance to further develop your skills and advance your career within a supportive and collaborative work environment.

This is a world-class company offering excellent career progression opportunities in Belfast with double-digit growth year on year for several years now and forecast well into the future.

If you are a motivated and ambitious Manufacturing Engineer - Electro-Mechanical products looking for a new challenge, then this could be the perfect role for you.

If you have any specific questions about this Manufacturing Engineer - Electro-Mechanical products opportunity in Belfast please contact David on 01582 350052. To apply email: [dphilpott@versorecruitment.com](mailto:dphilpott@versorecruitment.com)
