

Manufacturing Knowledge Management Consultant

[Apply Now](#)

Company: ICM Group

Location: England

Category: other-general

Location: Saudi Arabia (Must be willing to relocate and work in Saudi) Overview We are currently seeking a Manufacturing Knowledge Management Consultant to play a pivotal role in Global Manufacturing Excellence (GME) organizations to lead GME's Global Knowledge Management initiatives. Your primary role will be to oversee the establishment of a Knowledge Hub and drive continuous improvement through expertise sharing across +75 Communities of Practice (CoPs) management and administration in line with globally recognized best-in-class International Oil Companies (IOCs) knowledge management best practices. Minimum Requirements Must have a Degree in Engineering, Knowledge Management or a related field. Must have a minimum of 15 years experienced leading knowledge initiatives within manufacturing. Expertise in knowledge engineering, expertise mapping and learning systems is essential. Must have a proven ability to institutionalize continuous improvement culture. Must have a track record of developing and applying taxonomies at scale. Experience designing and implementing integrated knowledge platforms is a requirement. Must possess strong leadership, collaboration and change management competencies. Fluency in multiple languages desired given global responsibilities is preferred. Key Responsibilities Manage end-to-end knowledge capture processes from high-performing assets worldwide. Develop taxonomies and platforms to codify both explicit and tacit expertise. Re-establish, Administer, and Manage CoPs and expert forums to disseminate best practices rapidly. Benchmark manufacturing processes against industry-leading standards. Identify training needs and knowledge gaps to strengthen capabilities. Ensure integrated knowledge systems and digital tools are optimized. Report on metrics that

demonstrate impact on operational excellence.
