Category: other-general

Job Title: Manufacturing Manager - Electronic products

Location: Leicester, Leicestershire

Salary: £70,000 to £80,000 basic + Great benefits package

Are you looking for a Manufacturing Manager – Electronic products role in the Leicester / East Midlands area?

If so, a very good client of mine has got a brand-new role as Manufacturing Manager – Electronic products to join their team.

My client designs and manufactures complex high-value electronic instruments and electromechanical machinery that are used all over the world.

POSITION SUMMARY

We are looking for a Manufacturing Manager - Electronic products to manage the day-to-day activities of the Manufacturing Engineering Team ensuring NPI programs are delivered to plan, driving operational excellence, reducing costs, and providing production support to meet business targets.

MAIN DUTIES / RESPONSIBILITIES Manufacturing Manager – Electronic products, will include:

Drive continuous improvement throughout all aspect of operation and evolve the standards for a CI culture.

Work closely with all stakeholders to improve and enhance quality ensuring sustainable root cause analysis across the business.

Support New Product Introduction projects to ensure all new products are delivered on time to deadlines and sustainably to support long-term efficiency and future product developments.

Lead new process innovation projects to ensure manufacturing and production processes stay “ahead of the curve” and increase automation opportunities.

Within the team, run VAVE, Kaizen, and OPEX projects to drive down costs, improve production processes, right first-time quality, and product lead times.

Work closely and support all production areas to maximise efficiency in delivering the production plan.

Drive team culture to set the standard of operational excellence and capability within the business.

Required Skills/Experience for the Manufacturing Manager – Electronic products.

Relevant management experience

Strong interpersonal skills to effectively communicate with other functional areas.

End-to-end knowledge of production processes.

Experience in driving Operational Excellence

Experience in driving new products into production to tight deadlines.

Ability to liaise with technical teams, business stakeholders, and senior management.

Significant experience working in an organisation that has successfully used one or more continuous improvement methodologies (lean manufacturing, Six Sigma, etc.)

Experience in Engineering change workflows through to fruition.

This is a fantastic chance to join a global, multi-billion-pound engineering company offering excellent career development opportunities and a great benefits package including 28 days holiday + bank holidays and 1pm Friday finish.

If you have any specific questions about this Manufacturing Manager – Electronic products, please contact David on 01582 350052. To apply email; dphilpott@versorecruitment.com
