Materials and Manufacturing Planning Manager

[Apply Now](#)

Company: Vertiv

Location: United Kingdom

Category: other-general

Who are we?

At Vertiv, we build products that keep critical technologies running 24/7. We are proud we were the first to protect mainframes with precision cooling systems. We were the first to introduce an integrated enclosure system to distributed networks. We help some of the largest names in the industry bring new capacity online faster and at a lower cost when search and social media increase demand for storage and computing. Our portfolio spans power, thermal and infrastructure management products, software and solutions, and is complemented by a network of nearly 250 service centres worldwide.

We are now looking for a **Materials & Manufacturing Planning Manager** to join our team in **Burnfoot, Co. Donegal, Ireland!**

What kind of work will you be doing?

Develop a consistent capacity & material planning for factories to match demand in the long term. Participating in long-range planning and budget preparation.

Facilitate individual LOB Feedback to SI&OP (operations side). Prepare Executive SI&OP feedbacks.

Work closely with business partners (market, manufacturing, finance, procurement) as well as customers and suppliers to meet or exceed customer needs.

Drive the escalation process in case of critical issues linked to availability or cash flow.

Ensure that metrics are understood by all members of the value stream and results are

maintained and displayed on timely basis.

Optimize standard system setup to structurally and continuously improve results.

Ensure continuous improvement activities and identify possible synergies with factory organization.

Support talent management process (selection, development and career path).

Ensure team spirit, good team-working environment, conflict negotiation, individual and group communication.

Ensure appropriate development, training and coaching for the direct reports.

Provide leadership and mentorship to the entire team.

Ensure communication of vision and strategy for his area of responsibility above and below within the organization.

KPI responsibility:

On Time delivery on Promise / on Request

Factory lead time

Schedule adherence /Planning stability

Inventory Turn-Over

Factory occupation

Required Qualifications & Experience

BS degree, Engineering or Business Management.

5+ years experience in Operations Planning, ideally in a supervisory or management capacity

Availability to travel and working time flexibility, in an international environment

Good knowledge of Oracle architecture and planning tools (Cyberplan)

Good knowledge of standard software tools (MS Excel, PowerPoint, Access).

English – fluent level – written and spoken

A high level of motivation combined with leadership abilities is required

Competences: result-oriented, team player, careful to details, flexible

If **YOU** are the person we are looking for, feel free to apply and let's start drafting your future career in a healthy and growing environment.
