Company: Bridges - Trusted Intelligent Engineering Partner

Location: Forstal

Category: architecture-and-engineering

At Bridges we are more than Engineers.

As a team we shape and support engineering and construction for our clients who in turn touch the daily lives of millions of people across the UK. We have a large diverse team of talented Safe & Happy People, combining their strengths and ambition to bring innovation and evolution which ensures Sustainability for all stakeholders.

Across our key sectors – Water, Power, Energy and Aggregates, and supported through our regional office network supported by our manufacturing hub located in the heart of Somerset which forms part of our 60,000ft head office complex – we deliver diverse and interesting projects and programmes throughout UK infrastructure.

Our projects range in value from £5k to £15m, taking the role of Principal Contractor and Principal Designer on various schemes, and supporting our valued Tier 1 contractor clients in a subcontractor and off-site manufacturing capacity.

### Job Purpose

Due to continued growth we are currently looking for recruit a Mechanical Fitter. The role will involve working with a larger team of mechanical and electrical engineers across various client sites across the London and South East regions.
