### Client Summary:

Leading manufacturer and front line supplier of powertrain products based in the UK and Ireland. Areas of expertise include Engine Overhaul, final Drive Overhaul and locomotive refurbishment.

### Position Summary:

Stripping Rafts / building transmissions within the Rail industry.

You will be working in teams to breakdown mechanical systems on to locomotive rafts and rebuild. Roles can include:

- \* Engine strip down or strip down of components and rebuild.
- \* Fitting newly re-furbished engines back onto the rafts including all components that service that service and help the running of the engine, radiators, pumps, tanks, pipe work, electrical looms and more.
- \* To have a good understanding of vehicle mechanical interfaces and repairs of vehicle components.
- \* To be able to install / repair hydraulic systems.
- \* Previous engine knowledge would be advantageous.
- \* To overhaul of raft components.
- \* To be able to understand schematic drawings.
- \* To undertake training as and when required.
- \* To work within a realistic timeframe.
- \* To mentor trainees / apprentices when applicable.
- \* To ensure that waste is disposed of in the correct manner.

#### Person Profile/Experience:

- \* A strong mechanical background is required.
- \* People from HGV / large engine's / rolling stock assembly backgrounds ideal.
- \* Understanding of engines / hydraulics / pneumatics in plant or heavy good ideal.
- \* Good attitude and willing to work flexibly (overtime available)

#### Qualifications:

- \* Relevant engineering qualifications but not a necessity for an experienced person
