Located in Gillingham (Commutable from: Rochester, Sittingbourne, Gravesend, Longfield, Aylesford, Maidstone)

Are you a Mechanically biased Maintenance Engineer looking for a chance to boost your income with overtime, receive excellent benefits and join a dynamic and expanding company?

On offer is the chance to work for a well-established business, where you can enhance your skill set and pave the way for a substantial career advancement.

This renowned company is an industry expert boasting an outstanding reputation for excellence. Renowned for their innovative fuel system products, they stand at the forefront of the field. With their continued expansion, they are now seeking to bolster their engineering team.

In this Monday to Friday role, you will be responsible for a range of tasks including reactive

and preventative maintenance, fault finding, and the development of machinery. Additionally, you'll be tasked with responding to breakdowns for machine tools and test machines. The ideal candidate will possess a background in mechanical engineering, along with experience in machinery maintenance and repair. Workshop skills, particularly on turning, milling, and grinding machines, are highly desirable. Holding a fork truck license would be advantageous.

This is an excellent opportunity to work for a specialised, stable company who are recognised for looking after their employees, as well as providing excellent benefits and the chance to develop your career.

The Role:

Mechanical Maintenance Engineer

Reactive maintenance, breakdowns & fault finding
