

Mechanical Maintenance Engineer

[Apply Now](#)

Company: Multi Trades Recruitment

Location: Salford

Category: other-general

Multi Trades Recruitment is looking for an experienced Mechanical Engineer with a Plumbing/Heating bias background to work with a Facilities Management company in Salford (Media) Manchester.

Job Title: Mechanical Engineer (Plumbing/Heating Bias) - Reactive Maintenance

Shift pattern: 4on4 off - (2 days 7am - 7pm / 2 nights 7pm - 7am - 4 days off)

Pay rate: £18.97, Weekly Pay (Fridays)

Company Overview:

We are working alongside a leading facilities management company that specializes in delivering comprehensive and reliable solutions for a wide range of clients. We are committed to providing top-notch maintenance services to ensure the smooth operation of their facilities. As we continue to expand our operations, we are currently seeking a skilled Mechanical Engineer with a strong background in plumbing and heating, specifically in reactive maintenance to join our dedicated team.

Position Overview:

As a Mechanical Engineer with a plumbing/heating bias in reactive maintenance, you will be responsible for carrying out prompt and efficient repairs and maintenance on plumbing and heating systems in our client's facilities. Your technical expertise, problem-solving abilities, and attention to detail will be crucial in diagnosing issues, recommending appropriate

solutions, and ensuring the smooth functioning of these critical systems.

Responsibilities:

- * Respond quickly and effectively to reactive maintenance requests for plumbing and heating systems in various facilities.
- * Conduct thorough assessments and diagnostics to identify the root causes of issues and develop appropriate repair plans.
- * Perform repairs, replacements, and adjustments on plumbing and heating equipment, including pipes, valves, boilers, pumps, radiators and related components.
- * Troubleshoot and resolve issues such as leaks, blockages, pressure fluctuations, temperature control problems and system failures.
- * Collaborate closely with other engineers and technicians to coordinate maintenance activities and ensure timely completion of tasks.
- * Adhere to safety protocols and industry standards to maintain a safe working environment for yourself and others.
- * Document all maintenance activities, including repairs performed, parts used, and time spent, for accurate record-keeping and reporting.
- * Provide exceptional customer service by effectively communicating with clients, addressing their concerns, and ensuring their satisfaction with the provided services.

Requirements:

- * Degree in Mechanical Engineering or a related field.
- * Proven experience as a Mechanical Engineer with a plumbing/heating bias, specifically in

reactive maintenance, preferably in a facilities management or similar environment.

* In-depth knowledge of plumbing and heating systems, including components, functions, troubleshooting techniques, and repair procedures.

* Strong diagnostic and problem-solving skills to identify and resolve issues efficiently.

* Excellent mechanical aptitude and hands-on experience in repairing and maintaining plumbing and heating equipment.

* Ability to work under pressure, prioritize tasks, and meet tight deadlines in a fast-paced reactive maintenance environment.

* Exceptional attention to detail and accuracy in performing repairs and documenting maintenance activities.

* Excellent communication and interpersonal skills to effectively interact with clients, colleagues, and other stakeholders.

Please apply now with your updated CV for a call back.
