Experience in **game design from concept to live**

Creative ideas with advanced **problem-solving skills**

Basic to advanced knowledge of **user interface (UI/UX)** games

Passion for **video games** with solid understanding of games

Continued education and curiosity for **game trends** , **current design strategy** and **technology**

Excellent ability to manage **timelines** and be self-directed

Excellent communication skills in **English, both written and verbal**

Comfortable with **taking feedback** and use it to improve your work

## Nice to HAVE

Experience with AR/VR Immersive technologies

Cross-platform development experience

## Why join us?

If you're still not convinced by our work, here are a few more reasons why you might enjoy working at Koffeecup.

**Small team, big growth.** We are a small team - both in London and Krakow - it avoids the "too many cooks" scenario. Our studios provide our people with the space they need to be their best!

**Culture of creativity** Our work should always be fun and exciting & we have the projects to back it up. We are laid-back, committed, flexible & hard-working. We believe flexibility is a

two-way street.

**Private healthcare.** We care about the physical and mental well being of our team. No matter what happens - from an alien invasion to a sprained wrist - joining Koffeecup entitles you and to private medical care.

**Training.**Our team work incredibly hard, and so in the downtime we encourage them to pursue their career goals by investing in their learning - courses, resources & conferences. We will sort it.
