

## Middleware Technical Lead - Data Resilience

[Apply Now](#)

Company: McGregor Boyall

Location: Rugby

Category: other-general

Lead Middleware Engineer - Data Halifax, Bristol, Leeds, Manchester, EdinburghMcgregor Boyall's key client- a financial institution with a Senior Data Resilience Middleware Engineer position available, offering a hybrid work model across multiple locations. Enjoy the flexibility of remote work and flexible hours while contributing to the institution's mission of safeguarding critical data assets and ensuring business continuity. Key Responsibilities: Support platform, infrastructure, and middleware teams in delivering resilient solutions for critical assets. Provide input on middleware and ETL assessments to identify potential gaps. Develop initiatives for operational resilience and change frameworks. Oversee the development of data movement controls and collaborate with platform teams. Lead the definition of critical batch processes. Ensure accurate maintenance of the Data Resilience Information Asset Register. About the Role: As a Senior Data Resilience Middleware Engineer, you will play a vital role in ensuring the integrity, availability, and security of critical data assets. Collaborate with diverse teams and leverage your expertise in infrastructure administration, middleware, and integration to mitigate risks and protect against disruptions. Desired Qualifications: Over 10 years of experience in infrastructure administration, middleware, and integration. Proficiency in cryptographic key management and encryption deployments. Familiarity with operating systems and network protocols. Experience in event streaming, batch processing, and data movement tooling. Strong understanding of disaster recovery principles. Technical knowledge of regulatory guidelines on operational resilience. Additional Experience: Candidates with experience in data fabric, data replication, and supporting or remediating resilience issues on critical assets are preferred. This role offers the opportunity to join a

dynamic team committed to maintaining data resilience and ensuring business continuity in a challenging financial landscape. If the above looks of interest, please apply with an up to date copy of your CV for consideration. McGregor Boyall is an equal opportunity employer and do not discriminate on any grounds.
