Mid Level Engineer B2C travel booking marketplaceUp to £60kFully Remote in the UKLooking to 'roll up your sleeves' on a new technical challenge, to re-vamp a business's architecture?Come & take the lead on a digital transformation for an award-winning travel booking platform, with 55 million visitors per year!You'll be reporting to the CEO with a team of 7 Software Engineers, 1 being a Tech LeadThe Challenge?It's time to bite the bullet, and bring a legacy platform into the modern world. The platform is a big legacy monolith platform that has been 'lifted and shifted' to AWS. It's in the cloud, but it isn't cloud native.The business are looking to use the Strangler Pattern, taking weight from the legacy system without actively changing it, to move to a cloud-native, event-driven architectureTech Stack: Javascript, Node, Typescript, AWS (Kinesis, Event Bridge, DynamoDB, Lambda.What will you be doing?Working along side the team on the market place platformWorking towards OKRSModernising the stack and productThis is for you if…You have a strong technical background as a Software Engineer, preferably in the Javascript ecosystemYou've got experience working on cloud-native systems & know how to get thereIndependent and soft motivatedComfortable working in a fully remote environmentBased in the UK Even better if…You've got previous experience migrating monolith to event-driven architectures (e.g. CQRS, event sourcing)You've worked on a booking / marketplace platformSound like your next challenge? Hit the apply button & let's talk more!
