Mobile App Developer

Apply Now

Company: West Riding Recruitment

Location: Portsmouth

Category: computer-and-mathematical

A **Mobile App Developer** is needed for an established and professional Mobile App, Web Development and Digital Marketing Company located in Portsmouth. My client is looking for an enthusiastic and talented individual who would like to continue their career development with a very well-funded company. This position is **Full Time** with a generous 25 days' holiday a year.

Responsibilities:

- Design, development and testing of dedicated mobile apps

- Represent a key figure in our project team, working alongside other experienced professionals

- Utilise and build your technical, commercial and interpersonal skills whilst exceeding industry standards in your day to day tasks

- In addition to delivering the product, you'll be involved in driving the strategy across the business with adjustments to current industry trends.

Essential skills/ Experience for Mobile App Developer

- 1-2 years of proven commercial experience working as a **Mobile App Developer** for IOS or Android.

- Qualification in Software Engineering or Computer Science to a degree level

- Passion for future business development

The successful **Mobile App Developer** may have experience of the following:

IOS, Android, Java, Swift, X-Code, Objective-C, Telerik, Phonegap Cordova, HTML5, CSS3, JavaScript, jQuery, PHP, Hibernate, Junit, ASP.Net, C#, SQL, WCF, WPF, MVVM, MVC, Agile, TDD, BDD, OOP, Design Patterns or Web Services.

Ideally, the successful **Mobile App Developer** would have experience in one of these but full training is provided.
