

Mobile Developer

[Apply Now](#)

Company: Mobile App Development

Location: United Kingdom

Category: computer-and-mathematical

I am currently supporting a customer in the healthcare industry to work on a truly exciting project!

They are looking for a total of 4 mobile developers with the following experience

Required

Angular (with Ionic)

Kotlin

Swift

SDK updating

Android or ios experience (both would be amazing) building apps from scratch

Nice to have

Bluetooth (BLE experience)

UI experience

Datadog

Java Background

They are looking to pay around £500 per day depending on experience and this is a 6 month initial contract which is likely to extend. This is fully remote and outside IR35 with the client looking to interview next week and have successful candidates start mid April.
