

Multi Skilled Maintenance Engineer

[Apply Now](#)

Company: Warwick Harding Recruitment

Location: Oldbury

Category: other-general

Essential duties revolve around the installation of mechanical and electrical components on machines and offices. Maintenance of machines and troubleshooting and repairs whenever there is a breakdown.

Schedule and undertake periodic maintenance on all equipment, components, and installations.

- * Respond promptly to enquiries whenever there is a breakdown and resolve the issue as quickly as possible.
- * Ensure that equipment is in good working order to prevent disruption of activities.
- * Install fresh mechanical and electrical components and fittings.
- * Recommend replacement for old or faulty components or fittings to the management.
- * Assist in forecasting requirements.
- * Keep a record of all stock and supplies, including company equipment.
- * Working in collaboration with the production team to formulate the best cost-effective manufacturing process.
- * Help the organisation to reduce energy costs.
- * Ensure that all mechanical/electrical gadgets and instruments are switched off after close of work daily.
- * Fix and maintain lighting fixtures and fittings.
- * Troubleshoot machine breakdowns and provide preventive maintenance services.
- * Learn new skills and attend training programs to increase your knowledge of trends and best practices in the industry.

- * Provide a safe working environment for staff members and prevent electricity-induced accidents and mishaps.
- * Supervise maintenance works when new projects are undertaken.
- * Supervise and/or support contractor control onsite.
- * Support the company in increasing profitability by managing resources efficiently and making necessary recommendations.
