Position: Nights Shift Engineer

Location: Heathrow

Employment Type: Full-time, Permanent

Salary: Up to £38,000 per annum (Maximum)

Shift Pattern: 4 on, 4 off nights – 18:30 till 06:30

Annual Leave: 20 shift days

Training: Potential AP training courses

Benefits: Pension Scheme

Company Overview

[Company Name] is a leading provider of [specific industry or services] solutions in the Heathrow area. We are committed to delivering excellence in maintenance and engineering services, ensuring the smooth operation of our clients' facilities.

Job Description

As a Nights Shift Engineer, you will play a crucial role in maintaining and servicing various mechanical and electrical equipment in a PPM/reactive environment. You will be responsible for ensuring the reliability and efficiency of HVAC plant, cooling and heating systems, electrical power and lighting systems, plumbing/water systems, and general fabric works.

Key Responsibilities

- * Conducting planned preventative maintenance (PPM) activities on a range of M&E equipment
- * Responding promptly and effectively to reactive maintenance issues
- * Identifying and diagnosing faults, and carrying out repairs as necessary
- * Ensuring compliance with health and safety regulations at all times
- * Providing technical support and guidance to other team members as required
- * Documenting all maintenance activities accurately

Requirements

- * Proven experience as a Maintenance Engineer, preferably in a similar environment
- * Strong knowledge and understanding of HVAC systems, electrical systems, and plumbing
- * Relevant qualifications such as NVQ Level 3 or equivalent in a related field
- * Ability to work effectively in a fast-paced and demanding environment
- * Excellent problem-solving skills and attention to detail
- * Good communication and interpersonal skills

Benefits

In addition to a competitive salary, we offer a comprehensive benefits package including 20 shift days annual leave, potential AP training courses, and a pension scheme.
