Company: SoCode Limited

Location: Cambridge

Category: other-general

Optical Engineer

£36,000 - £55,000

Cambridge – Onsite

Could this be your next opportunity?

Work on the latest technology being launched into space!

Help create a sustainable, safer future for us all. As of March 7th, 2024, there are 9,494 active satellites in orbit. This company is looking to add to this, with the aim to identify areas of heat waste in our infrastructure through thermal imaging technology. This work can be utilised to help tackle climate change, crop monitoring and even maintain global security!

If you're an experienced Optics engineer with experience of designing optical systems, working with ZEMAX & Python this could be a great opportunity for you. You will be joining a team of experts in their field and working in a multi-disciplinary team to design the latest technology.

Key Skills & Experience Required:

MSc/PhD in Optical Engineering/Physics or something similar

Experience designing optical systems, handling, and setting up of optical apparatus

ZEMAX & Python experience The company can offer a competitive salary between £36,000 -

£55,000 depending on your levels of industry experience. They also provide the opportunity of hybrid working for up to two days a week and 25 days annual leave + 8 Bank holidays.

For more information, or to discuss your experience/CV, please do get in touch with Morgan Veness at SoCode - Cambridge Office

#LI-LP1
