As the Oracle Financial Consolidation and Close Cloud Service (FCCS) Administrator, you will be a part of our commitment to deliver what we promise for our clients within a growing essential infrastructure services provider operating within the UK & Ireland. Does this sound like a role for you? Read more... About the company and the team: A trusted employer to more than 10,500 people in the UK and Ireland. Operating across 21 businesses in 240 locations, we provide specialist infrastructure services in the water, energy, transport and telecommunications sectors. We work in a fast-paced environment and our business is constantly growing and evolving. Our central support team, based at Head Office, has grown rapidly and provides support across our Group and divisions to deliver to our people, our clients and their customers. As a Group we recognise that engaging and empowering our people to deliver and grow is pivotal to driving our business and achieving continued success. We are committed to creating an environment in which our people feel valued, supported and fulfilled. Who you are? Do you like a challenge? Are you keen to develop your skills? Do you enjoy finding solutions? As an

Oracle Financial Consolidation and Close Cloud Service (FCCS) Administrator, you will provide leadership in ensuring our finance systems support business challenges and enhancements to our underlying business processes. You will be responsible for the on-going health of the Financial Consolidation & Close Cloud Services (FCCS) applications and the Oracle Enterprise Performance Management (EPM) environment. You will identify improvement opportunities and work with multiple business units and our support partner to ensure efficient, productive and secure use of M Group Services' financial systems. If you want to make a difference working within a supportive team environment, we would be pleased to hear from you. As the Oracle Financial Consolidation and Close Cloud Service (FCCS) Administrator you'll get the opportunity to:

- Configure, set up and support of Oracle FCCS applications according to the company's financial structure and requirements.
- Manager user access, role and security privileges within the FCCS application ensuring secure and appropriate levels of access for individual users.
- Provide system administration and support for the production system and integrations with external systems.
- Oversee the integration of data from various sources into the FCCS application, ensuring data accuracy, consistency, and timeliness.
- Coordinate and execute period-end close activities, including consolidation, validation, and submission of financial data within specified timelines. Ensure the period-end close cycle runs efficiently and manage the scheduling of Oracle Enterprise Scheduler Service (ESS) jobs.
- Monitor system performance, troubleshooting issues, applying patches and updates, and providing technical support to end-users as needed.
- Ensure change management approval process is adhered to. Control system configuration deployments and ensure business and system impact is managed and signed off.
- Manage incidents and service request from inception to completion, ensuring full documentation is delivered and maintained.
- Support the project team and user community in all day-to-day activities. Be the point of contact between the business and third parties for issue resolution and problem management.
- Provide technical and functional expertise to facilitate better decision making and propose options for new and amended functionality.
- Maintain documentation related to system configurations, processes, and procedures.

What you'll bring?

- Degree or equivalent, professional qualification advantageous.
- Strong financial accounting experience.
- Minimum 3 years+ relevant administration experience with Oracle FCCS solutions.
- Demonstrable experience in supporting and implementing FCCS.
- Proficiency in EPM Automate.
- Experience in Oracle PBCS, ARCS and Reporting (OTBI, SQL) desirable.
- Excellent written and verbal communication skills.
- Extensive

knowledge of IT systems and a high degree of technical skill. System integration experience desirable. Business Intelligence software experience desirable. Information security. Experience of managing internal customer expectations and setting realistic deliverables and deadlines for solutions. Knowledge of enterprise architecture. What is in it for you? 25 days' annual leave plus 8 statutory holidays. Discretionary annual bonus. Contributory Pension scheme. Life Assurance. Access to our Employee Assistance Programme. Cycle to work scheme. Access to a wide range of discounts and special offers through our online rewards platform. Private health care. Company car or car allowance.
