

Pattern Maker and Assistant Garment Technologist

[Apply Now](#)

Company: Manière De Voir

Location: Manchester Area

Category: other-general

We are seeking a skilled and experienced Pattern Maker and Assistant Garment Technologist and to join our team. This new opportunity requires someone with exceptional attention to detail and a solid understanding of Womenswear garment construction.

Responsibilities: Liaising with the Designers, Production Manager, and Suppliers to offer technical guidance on new product development and garment construction. Aiming to reduce time, returns, cost and improving quality. Create accurate development specifications for various types of garments, ensuring proper fit, balance, and proportion for all design briefs, working in conjunction with the Designer. Adjust designs as necessary based on feedback from sample fittings or design alterations, maintaining the integrity of the original design while addressing fit and style requirements. Utilise grading rules to scale patterns up or down in size when necessary, ensuring consistency across different garment sizes while adhering to our size guide standards. Conduct thorough reviews of designs or fit comments to identify and rectify any errors or discrepancies before they are used in production. Maintain accurate records of all designs, including version history, alterations, and specifications, to facilitate efficient communication both internally and with suppliers. Undertake audits by spot checking products and reporting on findings. Advising on fabrications for specific size specs at design and sign-off stage prior to sampling whilst supporting in finding new silhouettes for product development. Prepare samples for twice weekly fit sessions, ensuring that the sample correlates to tech pack and development spec given is fit for purpose. Requirements A minimum of 2 years' experience of a similar role in a fast-paced Womenswear fashion environment. Pattern-cutting knowledge and practise is essential. Knowledge of grading and

grade rules is essential. Experience of working directly with factories, and thorough understanding of factory production, including workflow, production control, and equipment. Comprehensive understanding of fitting and fit issues is essential. Thorough understanding of garment construction and fabric technology. Strong time-management skills; able to prioritise tasks & be flexible. Excellent attention to detail. Clear concise communication is a must both written and verbally. Confident using Office 365, including Outlook, Excel and OneDrive. Confident using Mac. Salary - Competitive
