Plant Maintenance Electrician (Electrical Maintenance Engineer)

British Gypsum

Sherburn in Elmet, near Leeds

Working days, predominantly Monday to Friday, with flexibility to support a 24/7 operation

HIGHLY COMPETITIVE PAY AND BENEFITS.

Are you passionate about the ongoing maintenance and improvement of manufacturing environments through electrical fault finding, maintenance, installation, and improvement activities?

At our British Gypsum manufacturing facility in Sherburn in Elmet, we are seeking a Plant Electrician. This a great opportunity to join a highly skilled team dedicated to the ongoing improvement and maintenance of our gypsum plaster production plant, where we manufacture GRG board, Plasterboard, and Coving products.

As Plant Electrician / Maintenance Engineer, you will join a highly skilled team tasked with delivering predominantly reactive maintenance with some preventative scheduled

maintenance, some installation work, and supporting the ongoing improvement of plant equipment. Interacting with our wider engineering team and Production Operators, ensuring the plant is performing to optimal levels. You will be tasked with identifying solutions through fault finding, the application of root cause analysis, and the application of lean tools, while ensuring that safety protocols are always followed.

British Gypsum is one of 30 Saint-Gobain brand's and is a market-leading manufacturer of gypsum-based building materials from insulation, wall lining dry boards, and plaster to ceilings and floors. Our products shape modern interiors for the commercial, residential, and off-site sectors of the construction industry.

This is a full-time position based at our Sherburn-in-Elmet facility, predominantly working on days over Monday to Friday but with flexibility to support at weekends as required.

What we're looking for:

The applicant will ideally have served an electrical apprenticeship ideally qualified to HNC or demonstrate a minimum of NVQ3 electrical maintenance or comparable qualification with relevant industrial experience.

Experience in Professional Maintenance, with skills in fault finding and route cause analysis.

Computer literacy

A flexible and willing approach to working hours and deployment is essential

Attention to detail and persistence will be evident in the successful candidate

Experience in using permit-to-work systems and other safe systems of work such as conducting risk assessments and method statements.

Experience in using a CMMS system and contributing to writing maintenance planning.

Fault finding skills in Allen Bradley/Rockwell PLC systems will be an advantage Are British Gypsum and Saint-Gobain inclusive employers?

Saint-Gobain is the worldwide leader in light and sustainable construction improving daily life through high-performance solutions. From wherever you are, let your unique personality and our values guide you every day to invent a more sustainable world.

We understand that a diverse workplace is not only a more enjoyable place to be, but also facilitates better decision making and innovation. So, whoever you are, and whichever Saint-Gobain business you join, you can be sure of a warm welcome with us.

And what about flexibility?

The world of work is changing. At Saint-Gobain, we're always open to new ways of working. Everyone has different needs and commitments. We'll happily discuss any need you might have for this role: flexible hours, job-sharing, part-time working, or anything else that matters to you. We can't promise to meet every request when we're recruiting. But we do promise to listen.

If you match our criteria, we will be in touch to discuss your experience and find out more about you as a person, we look forward to hearing from you!
