

Plumbing & Heating Engineer

[Apply Now](#)

Company: Recruitment Helpline

Location: Kirkcaldy

Category: architecture-and-engineering

An excellent opportunity for an Experienced Plumbing & Heating Engineer to join a well-established company based in Kirkcaldy, Scotland.

Job Type: Full-time, Permanent.

Salary: £36,000 - £40,000 Per Annum, Depending on Experience.

Location: Kirkcaldy, Fife KY1, (Applicant must live within a commutable area to Fife)

About the Company:

They are a reputable and well-established plumbing and heating services provider with a commitment to delivering high-quality solutions to their clients. They pride themselves on their experienced team of professionals and a dedication to customer satisfaction. As they continue to grow, they are seeking a skilled Plumbing and Heating Engineer to join their team.

About the Role:

They are looking for a qualified plumbing and heating engineer to join their team in delivering a high standard of work and customer service to their large client base across Fife and the surrounding areas.

The work load is varied with very few days the same, from carrying out plumbing and heating

repairs and as they move into Net Zero the installation of Air Source Heat Pumps and underfloor heating.

The company seek a skilled and experienced Heating and Plumbing Engineer to join their team. The ideal candidate will have a strong background in heating and plumbing installation, repair, and maintenance.

Responsibilities:

- Install, repair, and maintain plumbing and heating systems.
- Inspect systems to identify and diagnose issues, and provide recommendations for repairs or replacements.
- Troubleshoot and resolve plumbing and heating problems efficiently and effectively.
- Ensure compliance with building and gas regulations, and safety standards.
- Keep accurate records of work performed, including materials used and time spent
- Work independently or as part of a team to complete projects within specified timelines.
- Stay updated on industry trends, techniques, and new technologies to enhance skills and knowledge.
- Maintain a clean and organised work environment.
- Provide exceptional customer service and communicate effectively with clients.

Candidate Requirements:

- SVQ / NVQ Level 3 Plumbing / Mechanical Services
- Minimum Gas qualifications: CCN 1, CENWAT, HTR1, CKR1, DAH1, CPA1
- Advantageous but not essential: Oftec 101, BPEC Heat Pump or equivalent.
- Full UK driving licence.
- High Level of workmanship and customer service.
- Good level of problem-solving skills.
- Maintain service records and the ability to work job management software.

The ideal candidate will have a passion for what they do, be able to work under their own

initiative, within a team setting along with working with sub-contractors. As a company who believes in giving young people the opportunity to learn this valuable trade and skills, you must be able to give advice and instruction to apprentices allowing them to in turn become plumbing and heating engineers.

Must have a minimum of 3 years' experience within the plumbing and heating industry, forward thinking, positive mindset and a can-do attitude.

If you feel this position may be of interest to you but you don't meet the requirements or particular skillsets, please get in touch. We have various positions available and aim to assist with training into particular roles

Company Benefits:

- Company Van.
- Company workwear.
- 30 days holiday (+ after 5 years' service)
- Company Pension + increased contributions
- On going training and industry qualifications (Heat Geek Mastery and Heat Pump Qualifications)
- A competitive salary based on experience and qualifications.
- Overtime and performance-based bonus.
- A company that supports our employees and assist in the advancement of their career.
