Category: other-general

We are proud to be exclusively working with a leading provider of innovative IT solutions, who are seeking a skilled Power Platform Consultant, to join their dynamic team. Specialising in cutting-edge technologies from Microsoft, including SharePoint, Power Platform, Dynamics, Dataverse, and AI, our client is dedicated to enhancing business productivity and automation.

**Responsibilities of the Power Platform Consultant:** Implement best practices for solutions, ensuring information security. Collaborate within a team to deliver customer solutions effectively. Maintain a positive approach when communicating with clients. Mentor team members on Power Platform features and development. Generate various documentation such as proposals, scopes of work, and technical handovers. Write clean, maintainable, and well-documented solutions, adhering to best practices.

**Requirements of the Power Platform Consultant:** 2+ years of experience building Power Platform Solutions. Proven track record with Microsoft Power Platform, including Power Apps, Power Automate, and Power BI. Strong understanding of business processes and the ability to translate requirements into technical solutions. Experience with data modelling, connectors, and integrating Power Platform with other systems. Familiarity with Microsoft technologies such as Dynamics 365 and SharePoint. Knowledge of information security best practices.

Joining our client's team offers an exciting opportunity to work with leading-edge technologies and contribute to meaningful projects that enhance business efficiency. As a Power Platform Consultant, you'll enjoy a collaborative work environment, opportunities for continuous learning and development, and the chance to build long-lasting relationships with clients. If you're passionate about leveraging technology to drive innovation, we encourage you to apply and become part of our client's

dynamic team. This is a remote first position with social events organised to bring the team together on a regular basis. Please note - we are handling this vacancy on an exclusive basis and as such, all third party applications will be forwarded to us. Other businesses may call this role: Microsoft Power Platform Specialist, Power Platform Solutions Architect, Power Platform Developer, Business Process Automation Consultant, Microsoft Dynamics 365 Consultant, Power Apps Developer, Power Automate Consultant, Power BI Analyst, Microsoft Solutions Engineer, Business Productivity Consultant
