## Power Platform Technical Architect

My client operate on a enterprise scale and are up there as one of the most accredited Technology Consultancies globally. Their Microsoft-specific offering within the UK is looking to add up to 80 heads over the next 12-18 months due to growth of pipeline and within the BizApps team they are looking to bring on an experienced Power Platform Technical Architect to spearhead enterprise-level implementations at the cutting-edge of the product.

The successful candidates will preferably come from a strong Technical Dynamics background with a deep understanding of the wider Microsoft stack from cradle to grave.

What you can expect:

Up to a £110,000 with bonus scheme including, DoE.

A progressive role that will grow vertically with the Microsoft capability.

Exposure to the cutting-edge of both Dynamics and Power Platform systems on enterprise-level implementations across various verticals.

What is expected of you:

Strong Power Platform experience (Pre-Sales, Scoping, Design, Build) - Model-Driven

Apps, Canvas Apps, Power Automate, Centre of Excellence, Dataverse, Power Pages.

Dynamics background preferred but not essential.

Pro-code background (C#, .NET).

Strong communication of technical concepts across all levels of stakeholders.

The ability and willingness to travel as per client request.

If this role is of interest, please reach out to [edward.collins@cognitive-group.com](mailto:edward.collins@cognitive-group.com).
