Category: other-general

Job Title: Pre-Sales Engineer - Computer Hardware

Location: Fareham, Hampshire

Salary: £35,000 to £40,000 basic + bonus + benefits

My client specialises in the creation, production and integration of sophisticated computing platforms.

They are growing rapidly and are looking for a Pre-Sales Engineer – Computer Hardware to join their business.

This is a hybrid role with 2 days a week WFH.

### **Role Purpose - Pre-Sales Engineer – Computer Hardware**

Your role will be to take the specification from a customer and create a solution using COTS products to fulfil the client's requirements. This is a desk-based role, not hands-on.

This role will be very focused on the Server/PC Hardware and knowledge of software and networking would be useful in this role but won't form a large part of it.

The ideal candidate will be interested in PC hardware and the inner workings of a typical PC. Maybe building PCs as a hobby etc, this is not essential but they would like someone technical that is into computers.

## **Skills and experience required - Pre-Sales Engineer – Computer Hardware**

You will have experience in specifying computers and be able to demonstrate a wide understanding of the related technology.

Enjoys interacting with sales and customers and getting involved in commercial aspects of winning business.

You will be responsible for the specification of server hardware.

You must have good communication skills.

This is a great opportunity for someone with some pre-sales experience around computers/PC hardware or someone with good technical knowledge of computer hardware and strong communication skills who is keen to get into a Pre-Sales Engineer role.
