At Places for People, we hire People, not numbers! So, if you like the sound of one of our jobs, please apply - you could be just who we're looking for! Of course, experience and track record are important, but we're more interested in hiring someone that embodies our People Promises. That's someone that does the right thing, is enthusiastic and motivated to grow, believes in Community spirit, is respectful and enjoys their work. As the UK's leading Social Enterprise we're dedicated to creating inclusive and thriving Communities for both our Customers and Employees.

**So, what are you waiting for? Join a Community that cares about you!**

### **More about your role**

The Principal Cloud Engineer will provide technical leadership to our Cloud Engineering team. In doing so, the role will own the portfolio of Cloud infrastructure solutions, and set and drive the technical standards. The role will create and maintain the technology roadmap for Cloud infrastructure, ensuring that we have a medium and long term strategy for Cloud.

### **More about you**

The role is responsible for leading on the development and enhancement of infrastructure through code, ensuring that our services are resilient, visible, scalable, repeatable and transportable. The role will ensure that all developed solutions meet the prescribed standards, aligned to best practice cloud engineering, and meet the performance requirements of the service.

We are a large diverse and ambitious business, which will give you all the challenge you could

wish for.

We know that there's always more we can do to make you smile, that's why we offer a comprehensive benefits package with each role, yours will include:

Competitive salary, with a salary review yearly

Pension with matched contributions up to 7%
