Principal Consultant - Firewall and Wireless Network Tech - London, UK

Lead Consultant

117031BR

Job Description

Role - Principal Consultant

Technology – Firewall and Wireless Network Technology

Location – London UK

We are looking for a highly skilled L3 Network Engineer with expertise in LAN, WAN, wireless and firewall technologies. The L3 Network Engineer will be responsible for implementing and maintaining complex networks, troubleshooting network issues and ensuring network security.

Responsibilities:

Implement and maintain complex LAN, WAN, and wireless networks

Troubleshoot network issues, diagnose problems and identify root causes

Configure and maintain firewalls and network security devices

Provide L3 support to resolve escalated network issues

Monitor network performance and provide performance reports

Collaborate with cross-functional teams to deliver projects on time and within budget

Participate in the design and implementation of network solutions

Develop and maintain network documentation

Perform network capacity planning and analysis

Stay up-to-date with emerging network technologies and trends

Requirements:

Bachelor's degree in Computer Science, Information Technology or related field

At least 5 years of experience in network engineering

Strong knowledge of LAN, WAN, wireless and firewall technologies

In-depth understanding of routing and switching protocols

Experience with network security technologies such as VPN, IDS/IPS, and ACLs

Experience with network monitoring and performance tools

Strong analytical and problem-solving skills

Excellent communication and teamwork skills

Ability to work under pressure and manage multiple tasks simultaneously

Industry certifications such as CCNP, CCIE, or JNCIP are a plus.
