Principal Electrical Design Engineer - Data Centres

Outside IR35 Contract

Remote / Hybrid

I'm working with **Data Centre Design and Build Consultancy** looking for **Principal Electrical Design Engineer** to help support on the design of varying Data Centres in the UK and Europe.

This will be **Hybrid working opportunity and is a 6 month contract** with a pay rate of around **£48-52 per hour Outside IR35** depending on experience.

Below are some of the job requirements so you get an understanding of the role:

Supporting with the tender work and new bids that come in for Data Centre projects

Depending on the client, you'll be producing Electrical designs across the full RIBA stages, but mostly it'll be doing stage 3 to 4 Designs of Data Centres of varying size.

Calculations, specifications, drawings.

Working on varying tiers of Data Centres across the UK and Europe

If you're interested in applying for the role, please send your up to date CV across to me
