Principal Mechanical Engineer Job, Salary up to £65000

Your new company You'll be working for a successful multidisciplinary consultancy based in Motherwell, who are looking for an experienced Principal Mechanical Design Engineer to join their Building Services team. This consultancy works on a variety of projects across Scotland's Central Belt as well as UK wide, operating across commercial, residential, Industrial, education and more sectors.

Your new role You'll play a key part leading the Mechanical Design team and will be at the forefront of multiple projects projects as well as have the opportunity to mentor junior team members. Your key responsibilities will include:

Designing and developing Mechanical systems for building services projects.

Preparing technical reports and specifications.

Ensuring compliance with relevant regulations and standards.

Collaborating with other engineers and architects.

Mentoring junior team members.

What you'll need to succeed

Bachelor's/ Master's degree in Mechanical Engineering or a related field.

8+ years of experience in Mechanical design engineering on Building Services projects.

Strong knowledge of Mechanical systems and building codes.

Excellent communication and business development skills.

The ability to work independently and as part of a team.

What you'll get in return You'll be paid a competitive salary, along with a range of benefits.

You'll benefit from a relaxed working culture, where you'll be given the autonomy to manage your own diary and have complete flexibility over your working week. You'll be given the support required to progress professionally and will be given a clear route to progress within the consultancy.

What you need to do now If you're interested in this role, click 'apply now' to forward an up-to-date copy of your CV, or call us now. If this job isn't quite right for you, but you are looking for a new position, please contact us for a confidential discussion on your career. # 4539970
