Company: Chronos Consulting

Location: United Kingdom

Category: architecture-and-engineering

### Job Description

**Contract type: Full Time**

**Type: Nuclear Management Consultancy**

**Locations: Bristol**

Our Client have an opportunity for a Principal Nuclear Safety Consultant to join our award-winning consultancy in Bristol.

They have been has been providing high-end strategic and advisory consultancy support to the nuclear industry since , working with operators and regulators across the new build, existing generation, decommissioning and defence markets. The company specialises in safety cases, environmental management, nuclear safety governance, radioactive waste management and decommissioning strategy, and development/demonstration of nuclear organisational capability. With clients including EDF Energy (NNB and Generation), AWE, RWM Ltd., TEPCO, Horizon, Babcock Marine and MoD, they provide a range of services to help organisations demonstrate compliance with the legal and regulatory expectations of the nuclear industry.

The person we seek is degree qualified, with either a science or engineering background and at least 10 years' UK industry experience in nuclear safety case.

Production/strategy/management. They will be highly credible and have an interest in identifying/tracking opportunities, winning new work as well as a talent for high quality delivery, utilising the team as appropriate. The potential to translate relevant nuclear knowledge and expertise to other sectors, such as oil and gas, is also encouraged.

### **The role will include:**

Leading the development of technical work and overseeing the work of others in your area of expertise (nuclear safety case production/strategy/management)

Preparation of proposals and undertaking business development activities

Leading our interactions with clients

Create, lead and develop project portfolios

It goes without saying really but the successful applicant will either hold existing security clearance or be able to obtain this.
