Company: IFS

Location: Staines-upon-Thames

Category: computer-and-mathematical

Job Description

We are on the lookout for a Principal/Senior Data Scientist who embodies technical excellence and a hands-on approach to problem-solving. In this role, you will have the autonomy to navigate complex AI/ML landscapes, delivering solutions that drive our innovative frontiers.

Key Responsibilities:

Identify and leverage AI/ML opportunities within our product offerings, transforming **insights into actionable strategies** .

Act as a **beacon of knowledge in AI/ML** , influencing our technological trajectory with your expertise.

Develop and integrate data science projects from scratch, ensuring they are scalable and perform at the highest level.

Collaborate with a diverse team of experts to design, implement, and oversee ML models that set industry standards.

Take on the **mantle of an AI/ML evangelist** , sharing your knowledge through conferences, webinars, and publications, and providing transformative insights to both clients and peers.

Qualifications

Skills and Qualifications:

At least **5 years of experience** in data science, with a portfolio of successful projects.

Comprehensive skills in AI/ML solution lifecycle management, from conceptualization to deployment and monitoring.

Proficiency in Cloud ML solutions, with **hands-on experience in Docker and Kubernetes**.

A deep understanding of **statistical modeling and analysis**.

Expertise in Python, along with familiarity with essential ML tools and libraries.

Experience with ML experiment tracking and collaboration tools like **MLflow and Weights & Biases**.

A strong foundation in **software engineering, DevOps practices, MLOps** deployment, and infrastructure management.

An affinity for **generative AI frameworks and SDKs**, such as RAG, Langchain, Semantic Kernel, and tools like MS tooling, Co-Pilot Studio, ML Studio, Prompt flow, Kedro, etc.

Proficiency in pipeline orchestration with tools like **Airflow, Kubeflow, and Argo**.

Exceptional communication skills, with the ability to **articulate complex statistical concepts** clearly.

Personal Competencies:

A **results-oriented** professional with a fervent passion for innovation and a self-motivated, proactive approach.

Exceptional organizational skills, fluent in spoken and written English, and **driving creative solutions**.

A **strategic thinker**, constantly exploring the next significant advancement in data technology.

Join our team and contribute to the shaping of our AI/ML future, where your expertise will be instrumental in driving our success in the data science domain.
