Company: LexisNexis

Location: United Kingdom

Category: computer-and-mathematical

Principal Software Engineer

Do you enjoy being part of a team that works with a diverse range of products /technology?

Do you enjoy ensuring the quality of software delivered?

About our Team

LexisNexis Legal & Professional, which serves customers in more than 150 countries with 11,300 employees worldwide, is part of RELX, a global provider of information-based analytics and decision tools for professional and business customers.

About the Role

At LexisNexis Intellectual Property (LNIP), our mission is to bring clarity to innovation by delivering better outcomes to the innovation community. We help innovators make more informed decisions, be more productive, and ultimately achieve superior results. By helping our customers achieve their goals, we support the development of new technologies and processes that ultimately advance humanity.

As a Principal Software Engineer, you will provide clients expert guidance and technical leadership on complex software development projects. You will collaborate with cross-functional teams to deliver innovative solutions that meet client needs and drive business

growth. Through your leadership and mentoring, you will inspire and develop talent to achieve technical excellence and deliver exceptional results.

Responsibilities

Serving as a primary technical point of contact for external technology resources. Providing technical leadership and guidance to development teams.

Providing design input across a product.

Writing and reviewing portions of detailed specifications for developing system components of moderate complexity.

Designing and working with complex data models.

Mentoring and leading software developers interested in consultancy on development methodologies and optimization techniques.

Requirements

Demonstrate 10 years of Software Engineering experience

Demonstrate knowledge of multiple programming languages, currently we are primarily using C#, React, JavaScript and TypeScript.

Experience with Databricks, Python, PySpark, AI, technologies such as machine learning, natural language processing is advantageous.

Possess experience knowledge of continuous integration and continuous deployment technologies, methodologies and best practices.

Experience in data modeling, design and manipulation, optimization, best practices, tuning, and leading industry trend knowledge.

Experience with cloud native solutions, in AWS, using containers (K8s)

Possess extensive knowledge of application architecture, and in particular micro-services and RESTful APIs

Work in a way that works for you

We promote a healthy work/life balance across the organisation. We offer an appealing working prospect for our people. With numerous wellbeing initiatives, shared parental leave, study assistance and sabbaticals, we will help you meet your immediate responsibilities and your long-term goals.

Working flexible hours - flexing the times when you work in the day to help you fit everything in and work when you are the most productive

Working for you

We know that your wellbeing and happiness are key to a long and successful career. These are some of the benefits we are delighted to offer:

- Generous holiday allowance with the option to buy additional days
- Health screening, eye care vouchers and private medical benefits
- Wellbeing programs
- Life assurance
- Access to a competitive contributory pension scheme
- Save As You Earn share option scheme
- Travel Season ticket loan
- Electric Vehicle Scheme
- Optional Dental Insurance
- Maternity, paternity and shared parental leave
- Employee Assistance Programme
- Access to emergency care for both the elderly and children
- RECARES days, giving you time to support the charities and causes that matter to you
- Access to employee resource groups with dedicated time to volunteer

- Access to extensive learning and development resources
- Access to employee discounts scheme via Perks at Work

About the Business

LexisNexis Legal & Professional® provides legal, regulatory, and business information and analytics that help customers increase their productivity, improve decision-making, achieve better outcomes, and advance the rule of law around the world. As a digital pioneer, the company was the first to bring legal and business information online with its Lexis® and Nexis® services.
