Category: architecture-and-engineering

Description

Principal Structural Engineer

Warwick

£55k - 65k

A team of civil and structural engineers are nationally recognised for delivering sustainable and integrated design. My client's ability to work collaboratively with other disciplines has seen them develop truly inspiring solutions that are sympathetic to their surroundings and which minimise environmental impact.

With their team growing, this Principal Engineer role will provide you the opportunity to work in various sectors as part of an enthusiastic and committed team of engineers and technicians.

Working on a variety of projects, you will manage the delivery of civil and structural designs within projects, according to requirements, you will ensure project teams have in place appropriate skills and resources and ensure compliance with business quality & management systems.

You will also be involved in the implementation of change, as directed by the Director and Associate Engineer.

Responsibilities;

Day-to-day management of C&S project teams

Ensure team compliance with company management system

Contribute to wider development of C&S department capabilities

Task:

Lead C&S design delivery across large single projects or multiple smaller projects, in single- or multi- discipline teams

Implement 'Perfect Delivery'

Report on project performance to Associate Engineer

Tender preparation for projects of all sizes, including fee estimates

Carry out technical design reviews / critiques of projects in progress

A technical authority on civil and structural design

Be open to and encourage innovation and sustainability

People:

Mentor, train and develop junior engineers

Support individuals to maximise performance

About You

Chartered (or working towards Chartership) Civil/ Structural Engineer CEng MICE/ MIStructE

Appropriate depth and breadth of experience

CSCS Card

Willing and able to obtain security clearance

Full Clean Current UK Driving Licence

Conversant with current C&S design codes & standards

Experienced in discharging responsibilities under CDM and health and safety regulations

Demonstrable track record of successful project delivery and client satisfaction

Why this Opportunity?

You will work on exciting projects with niche clients in a range of sectors, including Life Sciences, Industrial, Custodial and Education

You will join a team that value innovative ideas, client service and following best industry practice

Benefits:

Whatever your discipline, you'll be alongside some of the most talented people in the industry. Their network of offices are appealing, friendly and comfortable spaces, easily accessible by car or public transport. And their salary and benefits packages are some of the best in the industry. What you get will depend on what you do, with individual performance-related rewards also on offer in addition to:

Company car or cash allowance

Up to 6% matched contributory pension plan

Life assurance scheme

25 days annual leave plus ability to buy additional leave

Discount scheme (including gym membership, mobile phones etc)

Flexible working

Family friendly policies

Employee assistance

Professional development

If you would like to be considered for this opportunity, require more information regarding the role, or other Structural or Civil Engineering roles in the Midlands - please contact Evie Thornton at Calibre Search.

Calibre Search promote equality in the workplace and we welcome applications from all

suitably skilled or qualified candidates regardless of their sex, race, disability, religion/beliefs, sexual orientation or age. We act as both an employment agency and employment business.
