Process Engineer £40,000 - £55,000 We're a technology and engineering consultancy driven by a passion to solve complex challenges. We deliver solutions to safeguard lives, create a sustainable future, and push the boundaries of innovation. If you share our drive, we're expanding our fluid process and HVAC services across diverse industries. We need bright minds to help us transform how critical engineering problems are tackled in low carbon energy, nuclear power, chemical processes, utilities, and more. Join our team, and you'll be part of a collaborative environment where your growth matters. We'll nurture your professional development with targeted support, helping you gain chartered engineer status. Expect mentorship, competitive compensation, work-life balance with flexible options, generous holiday time, company-backed professional memberships, private healthcare, and performance-linked bonuses. It's a place where contributions are recognized and rewarded.

**About the Role** Join us in developing and delivering cutting-edge fluid process and HVAC system solutions. Your expertise will shape projects in nuclear, low-carbon, chemical, and aerospace sectors. Make an impact on the design of new systems and the optimization of existing ones. Expect a diverse, stimulating project portfolio with room to grow your leadership skills.

**About You** Naturally curious and thrive on solving complex problems. Passionate about the practical applications of engineering principles. Adept at clear, concise technical communication. Driven to continuously expand your skills.
