

## PROCESSING OPERATOR

[Apply Now](#)

Company: The Carling Partnership

Location: United Kingdom

Category: production

Our client is looking to recruit a dynamic, energetic and self-driven person to the role of Processing Operator, with responsibility for the intake of products, ensuring all process controls, quality standards and H&S requirements are followed.

Key Responsibilities:

- Intake of product ensuring all process controls, quality standards and H&S requirements are followed. Record all details on check sheets provided.
- Knowledge of all processing pipe routes and all tank capacities.
- Control of Heat Exchanger, Bosch mixer and pumps.
- Cleaning of all routes, equipment and tanks using CIP system
- Cleaning of all external areas. Eg. Floors, pipe and tank fittings, tanks etc.
- Weighing and mixing ingredients to customer recipe.
- Stock control (Intake, rotation, stock count) of ingredients.
- To work closely with the Processing Co-ordinator to ensure handovers are effective communications tools.
- To ensure that Health and Safety rules and regulations are adhered to during the shift.
- To ensure good communication is given either verbally or written where needed.
- Continuously maintain housekeeping standards to ensure a clean and safe workplace.
- Trained on Depalitiser and Robot to support Production where needed.
- Maintaining high level of timekeeping

Person Specification:

- This is a role for somebody dynamic, energetic, self-driven, results-oriented, and above all

who has a positive “can do” outlook with a clear focus on deliverables. We are looking for a highly organised, naturally forward planning, logical, structured thinker. Prompt and accurate communication skills are essential.

- Able to effectively work individually and as part of a team.
- Understands the principles of manufacturing.
- Work experience: Minimum 3 years working in manufacturing.
- Able to work extended hours and in different areas, on occasions when required.
