Job summary

Our Client based in Waterlooville requires an experienced PCB assembler to join their busy team

Key skills required for this role

assembler, solderer, soldering, PCB

Important

assembler, solderer, soldering, PCB

Job description

Introduction

Our client, a well-established manufacturing company, is currently seeking a Production Assembler/Solderer to join their team. This Temp to perm position offers an exciting opportunity to contribute to the production process of electronic assemblies and box builds. The successful candidate will play a key role in ensuring high-quality standards and efficiency in assembly operations.

Main Responsibilities

Perform PCB assembly tasks involving SMT and PTH soldering

Conduct cable assembly using crimp tools

Undertake electro-mechanical assembly

Refer to customer BOMs/drawings to ensure compliance with manufacturing standards

Execute PCBA rework as necessary

Experience / Skills / Qualifications

Experience or knowledge of IPC 610 standards

Proficiency in PTH/SMT soldering, adhering to minimum IPC610 class 2 standards

Excellent component recognition and knowledge

Ability to work with fine pitch components under a microscope

Strong written and verbal communication skills

Capability to understand and effectively communicate technical information

Effective prioritisation skills to manage a busy workload

Ability to perform well under pressure

Inspection experience, although not essential, would be advantageous

Additional Information

Share

manages this role

Matchtech is a STEM Recruitment Specialist, with over 35 years' experience
