Company: Morgan Jones Recruitment Consultants

Location: Sandwich

Category: architecture-and-engineering

Production Engineer

Location – Sandwich, Kent

Salary – Depending on experience

Benefits – 9-day fortnight, profit sharing scheme, rewards and recognition, and more!

Permanent Contract

Do you have a degree in engineering or an apprenticeship in an electro-optical manufacturing setting?

Do you possess knowledge of manufacturing engineering principles?

Our client is a very well-established precision engineering manufacturer whose core of our products are supplied to more than 50 countries. They manufacture and supply an extensive range of cutting-edge precision technology directly to end users and offer a comprehensive capability as a prime supplier. They are looking for a Production Engineer to join their expanding team working at their great manufacturing facility in Sandwich.

Responsibilities

- * Manage and establish standards, methods, and procedures for the design, modification, and maintenance of manufacturing equipment (Jigs / Fixtures / Tooling) and processes
- * Create and communicate production plans, build documentation, and route cards for various engineering projects transitioning from final design to series production
- * Contribute to shaping the strategy of the Operations Department
- * Coordinate cross-functional activities across departments to address manufacturing issues during day-to-day operations

- * Develop and implement best practices to enhance production capacity, quality, and reliability
- * Support and actively participate in continuous improvement initiatives, as well as provide assistance in New Product Introduction (NPI) and Design for Manufacture (DFM) activities
- * Take charge of production engineering responsibilities related to Transfer of Technology (ToT) projects
- * Conduct customer and supplier visits by car as needed, requiring a full current driving license
- * Formulate operating instructions and equipment specifications for production activities
- * Perform additional tasks and activities as directed by management

Skills and Experience

- * Ideally educated to Degree level or undertaken an apprenticeship in electro-optical engineering
- * A keen eye for detail
- * Results-orientated, aware of the importance of budgets and deadlines, ability to manage work within these constraints
- * Communication, influencing and interpersonal skills
- * A full, clean, current driving licence
- * Ability to Demonstrate a good level of understanding and application of process engineering principles, concepts, practices and standards.
- * Must be comfortable working in the defence and security sector
- * Ability to read engineering drawings and understand Geometric Dimensioning and Tolerance (GD&T)

To find out more about the position, please apply and we will be in touch to discuss the role in more detail.
